## **E. PRODUCT INFORMATION**

### ***(a) General***

Products and services of MS ARM and its affiliates are only offered in jurisdictions where they may be lawfully offered for sale. All products and services are subject to the terms of the applicable agreement. The information contained on this Website is subject to change without notice and does not constitute an offer or solicitation by anyone in any jurisdiction in which such an offer or solicitation is not authorized or to any person to whom it is unlawful to make such an offer or solicitation.

Potential investors who do not live in Canada should consult their financial advisor to find out if these securities are offered lawfully within their jurisdiction. If you choose to use this web site outside Canada, you are solely responsible for complying with all relevant local, national, and international laws. It is prohibited to use or export, or re-export any information contained on this web site, or to copy any parts in violation of any relevant law or regulation, including the Canadian laws and regulations relating to importing.

### ***(b) Disclosure***

Commissions, trailing commissions, management fees and expenses all may be associated with mutual fund investments. The indicated rates of return (other than for each money market fund) are the historical annual compounded total returns for the period indicated

including changes in unit value and reinvestment of distributions. The indicated rates of return for each money market fund are an annualized historical yield based on the seven-day period ended as indicated and does not represent an actual one year return. The indicated rates of return do not take into account sales, redemption, distribution or optional charges or income taxes payable by any unitholder that would have reduced returns. Mutual funds are not covered by the Canada Deposit Insurance Corporation or by any other government deposit insurer and are not guaranteed or insured. Their values change frequently. There can be no assurances that a money market fund will be able to maintain its net asset value per unit at a constant amount or that the full amount of your investment will be returned to you. Past performance may not be repeated.

Graphs are only used to illustrate the effects of the compound growth rate and do not reflect future values of any fund or returns on investment of any fund.

The performance of an Index fund is expected to be lower than the performance of its respective index. Investors cannot invest directly in an index. Comparisons to indices have limitations because indices have volatility and other material characteristics that may differ from a particular mutual fund.
